Student Mobility Project for Higher Education

Dear _____,

Congratulations on your acceptance to the Student Mobility Project for Higher Education! We have chosen you to become an ambassador for the University of Haifa, and to represent the values and mission of the university with dignity and maturity. This experience aims to expose you to your host institution in terms of local culture, unaccustomed learning techniques, academic content, networking, and collaboration. This is a unique opportunity to bridge a gap between cultures, and to act as a liaison for Israel and for the University of Haifa. This mobility aims to modernize and improve higher education within Israel across Europe and the rest of the world. It gives students an opportunity to learn abroad, develop their skills and boost their employment prospects. An important aspect of your experience is how you choose to incorporate this knowledge and new skills upon your return.

Please read the below instructions carefully before signing the document.

- Prior to receiving a formal admission notice from the foreign university, the student will not approach (including email/call) the foreign university unless the Exchange Programme Department permits him to do so.
- You will copy the Exchange Programme Department to any email communication with the foreign university.
- You are responsible to submit your own application to the foreign university according to its procedures and instructions.
- You must be accepted by the foreign university before you can book your flight tickets.
- You will inform in writing and in advance, the Exchange Programme Department of your travel dates to and from the host country.
- You will make the Department aware of any difficulty you are facing concerning visa/ courses/ travel or any other personal circumstances, which may deter you from successfully completing this mobility.
- You are required to confirm your participation in this programme within one week of receiving this letter to the following email address: arubin1@staff.haifa.ac.il.
- After you have confirmed your participation, you may not cancel the mobility. Any cancellation on your part, unless in extreme circumstances involving health emergencies will give rise to an automatic NIS 500 cancellation fee. You agree that the University may use the same means to collect such fee as it may collect unpaid tuition.

I have read and understood the above terms and agree to abide them.
